Serial No. 09/594,461

**DETAILED ACTION**

**Restriction:**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6 and 58-61, drawn to structure of method of routing data, classified in class 709, subclass 238.
- II. Claims 7-57 and 62-72, drawn to method of monitoring and analyzing data traffic and using the monitored data to update the routing table, classified in class 709, subclasses 224 and 242.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination I as claimed do not require the particulars of the subcombination II as claimed because any conventional data routing table can be used. The subcombination II has separate utility such as monitoring entry points of the messages, which enables measuring the amount of traffic on a particular network link.

Serial No. 09/594,461

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

2. A telephone call was made to Mr. James Lea on September 24, 2003 request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Vu whose telephone number is (703) 305-9597. The examiner can normally be reached on Monday through Thursday from 8:00am to 4:00pm.
